

# SIMON CATALIN ANDREI

WEB DEVELOPER & UI/UX ENTHUSIAST

---

## OBJECTIVES

I want to develop a career in IT, continuously applying and improving my technical and creative skills. I am passionate about creating attractive and functional interfaces that improve user/customer experiences and support business objectives. I remain committed to innovation and am committed to constantly adapting to trends in UX/UI.

---

## EXPERIENCE

### GRAPHIC DESIGN – CREATIV PRINTERO

Mar 2021 - Jul 2025 (Onesti - Romania)

I focused on creating original and eye-catching designs using CorelDraw. We have worked closely with customers to understand their preferences and requirements, turning their ideas into high-quality custom products, from mugs and t-shirts to décor items, banners, billboards, etc. I also managed the processes of preparing files for laser engraving and cutting, ensuring that designs are properly tailored to achieve accurate and aesthetically pleasing results. We were responsible for testing various materials and techniques to ensure the final quality of the products. In addition to technical skills, I have dedicated myself to continuous learning of trends in graphic design and customization, thus contributing to the constant innovation of the company's product offering.

### ASSISTANT MANAGER – RED LOGISTICS/AMAZON

Feb 2018 - Jul 2020 (Cardiff, Wales)

Coordinating the daily delivery activities and managing the courier team, ensuring an efficient conduct of operations. I draw up the necessary documents, monitor the team's performance and respond to customer requests, helping to optimize processes and increase customer satisfaction.

### ASISTENT MANAGER – RICH FOREST

Ian 2017 - Ian 2018 (Onesti - Romania)

As an assistant manager in a lumber company, I was responsible for recording all entry and exit notices of raw and processed wood in the entry-exit register, maintaining an accurate record of inventories. We managed relationships with suppliers and customers, ensuring effective communication and compliance with commercial conditions. We have also drawn up transport notices

- HTML
- CSS
- TailwindCSS

for timber deliveries and prepared the necessary documents for participation in timber auctions. On a monthly basis, we participated in these auctions, providing support in the purchase of raw materials according to the company's requirements.

### **FRONTEND DEVELOPER – GENALCA**

Sep 2016 - Dec 2016 (Bucharest)

I was in charge of implementing and optimizing the web interfaces to provide users with an interactive and intuitive experience. We used technologies like HTML, CSS, and JavaScript to turn graphic designs into functional and responsive web pages. We worked with the design team and the backend developers to integrate the visuals with the app's functionalities.
